

PATHUMTHANI 6 RED WORLD CHAMPIONSHIP 2023

Additional Event Rules

- 1) At the end of round robin matches, positions in any given group shall be decided on the basis of number of matches won.
- 2) To resolve any ties within the groups when two (2) players have equal number of wins, the best frame differentials shall decide the positions. If still being equal, the winning result between the two (2) players concerned shall determine their positions.
- 3) To resolve any ties within the groups when three (3) have equal number of wins, the best frame differentials shall decide the positions. If still being equal, a draw shall be conducted to determine the top position. For the remaining two players, the winning result between the two (2) players concerned shall determine their positions.
- 4) In case of a walkover or forfeiture during the round robin stage, the player not in default shall be credited with a win, but no frames shall be awarded thereto. However, should the non-award of frames for the forfeited match affects concerned player's position within the group, then a sufficient number of winning frames (not exceeding five frames) shall be awarded thereto to enable him to tie with the player immediately above him and to establish the eventual positions, the result of the match between the two players shall be considered.
- 5) No re-seeding shall take place at the conclusion of the round robin stage. Pairings for the knockout stage matches shall be decided by a draw shall as per following format:
